Capgemini Cheatsheet by Preplnsta Prime

This cheatsheet by Preplnsta will help you understand the pattern and syllabus of the Capgemini Exam. This PDF will also provide you the previous year questions which have been asked in Capgemini both On-Campus and Off-Campus exams.

Detailed Capgemini Exam Pattern

Topics	No. of Questions	Allotted Time
Technical Test	40	40 mins
Essay Writing Test (WET)	1	30 mins
Game-based Aptitude Test	4 games out of 24	~25-30 mins
Coding	2	45 mins
Spoken English	30	30 mins
Behavioural Competency Test (Mostly Off-Campus)	~100	NA

Note-

1. Capgemini Exceller also asks coding questions for a different profile, wherein you have to solve 2 questions within 45 mins. [Click here](#) to learn more about it.
2. Capgemini Exceller is hiring for 3 post this year i.e.,
 - a. **Analyst (A4)**: 4.25 LPA (this is base package and will be offered if you can not clear coding round)
 - b. **Analyst Star (A4(P))**: 5.75 LPA (if you are able to clear 1 coding question then you will be offered this package)
 - c. **Senior Analyst (A5)**: 7.50 LPA (if you will be able to clear both coding question you will be eligible for this package)

Capgemini Technical Test

Capgemini Exceller **Technical Test** is a newly introduced Round in Capgemini Exceller Placement Test. Capgemini Exceller doesn't care if you're a non-CS/IT student, they will anyways ask you about **Data Structures**. According to them, if you're applying to an IT company, you must know coding.

Detailed Capgemini Technical Exam Pattern

Topics	No. of questions (approx)
No. of Question	40 Questions
Time	40 Question
Difficulty	High

Capgemini Technical Exam Syllabus

Capgemini Exceller Technical Test Section is further divided into multiple rounds i.e Pseudo Code, Networking, Cloud and Data Structure. Mentioned below few commonly asked topic of Data Structures:-

- Queue
- Array
- Stacks
- Tree
- Graphs
- Time complexity
- Hashing

Question 1

The following code snippet inserts a node at the beginning of the linked list. This code has some logical or syntactical error in it, find out the error and choose the correct answer from the given options, to fix that error.

Code Snippet:

```
#include <stdio.h>
void main()
{
    int a = 100;

    printf("%0 %x", a);
}
```

- A. ptr→next= head;
- B. head = ptr
- C. ptr→data = addr;
- D. The code has no error

Question 2

The following code snippet calculates the Factorial of a number entered by the user. But there is a small logical error in the code sequence. Find out that logical error, and choose the correct answer from the given option that fixes the error.

Code Snippet:

```
result = (x << 1) | (y & x)
```

- A. 11
- B. 14
- C. 9
- D. 8

Question 3

What will be the output of the following pseudocode?

Code Snippet:

```
integer p, q, r;  
Set p = 4;  
q = 6;  
r = 2;  
  
p = p + q + r - 7;  
q = p + r - 7;  
  
if (p > q)  
    Print Hello  
else  
    Print Hi
```

- A. Hello
 - B. Hi
 - C. Error
 - D. Hello Hi
-

Question 4

What will be the output of the following pseudocode?

Code Snippet:

```
#include <stdio.h>  
int main()  
{  
    int p = 2, q = 3;  
    for (int i = 0; i <= 6; i = i + 2){  
        p = p + q + i;  
        p = p + q;  
        q = p - q;  
        printf("%d ", q);  
    }  
}
```

- A. 30 10 27 70
- B. 13 10 47 70
- C. 5 15 39 99
- D. 13 10 27 70

Question 5

What will be the output of the following pseudocode?

Code Snippet:

```
#include<stdio.h>
int main()

{
    fprintf(stdout,"Get Placed");
}
```

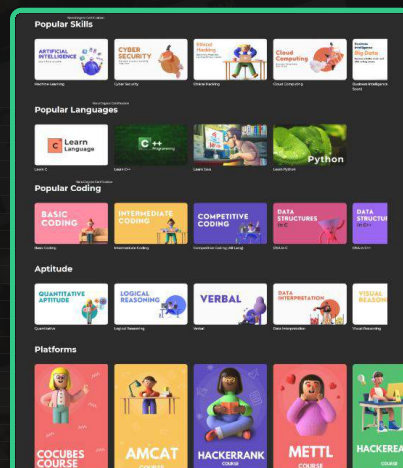

- A. Error
- B. Get Placed
- C. garbage values
- D. Nothing gets printed

Capgemini Game Based Aptitude Test

Capgemini Exceller Game based Aptitude Test has changed its hiring pattern and its new section game based Aptitude Test has 4 Aptitude based games to be played, these games are randomly selected from 24 games present in the system. The following are some Games which were asked in the Capgemini Exceller test previously.

Detailed Capgemini Game Based Test Pattern

Game	Type of questions	Duration
Deductive-Logical Thinking(GeoStudio Challenge)	Find a missing symbol based in a 4×4 or 5×5 grid based on Geometrical Sudoku.	6 mins
Inductive-logical Reasoning(Spacio Challenge)	Visual reasoning based questions where you're supposed to find pair of figures that follow the same rule as given by a pair in question	6 mins
Grid Challenge	Ability to focus and multi task is tested. Following needs to be done simultaneously: 1. Checking if two grid are identical 2. Remembering position of coordinates in a grid	6 mins(not 9 mins)
Motion Challenge	Your ability to plan ahead is measured. Has puzzles, where you have to find a path between two points in the maze, in fewer steps as possible.	6 mins
Switch Challenge	Sequence of Geometrical Shapes, go through a switch containing code. This code changes the order of shapes, you're supposed find the correct code as per input-output	6 mins
Digit Challenge	A mathematical Operation needs to be solved, by using a few available digits only once.	6 mins

Capgemini Coding Test

Capgemini Exceller Coding Questions has been included as a new round in Capgemini Exceller selection process for 2025 graduates.

This round will be conducted through CoCubes, containing 2 coding questions and you will have a total of 45 mins to solve. This round has been added to check the candidates programming, logical and problem solving techniques.

Detailed Capgemini Coding Test Pattern

Coding Round	Important Information
Total no. of question	2
Allotted Time	45 mins
Section Property	Mandatory
Difficulty	High

The package offered for this post is 7.5LPA, and since the package being offered is comparatively higher than the normal hiring process, the selection process and test difficulties level are also higher than normal.

1. Capgemini Exceller is hiring for 3 post this year i.e.,

- a. Analyst (A4):** 4.25 LPA (this is base package and will be offered if you can not clear coding round).
- b. Analyst Star (A4(P)):** 5.75 LPA (if you are able to clear 1 coding question then you will be offered this package).
- c. Senior Analyst (A5):** 7.50 LPA (if you will be able to clear both coding question you will be eligible for this package)

Question 1

Problem Statement : Chloe is provided with a string that contains only the following characters: (,), {, }, [,]. She's been tasked with determining whether the given string forms a valid parenthesis sequence or not. A valid parenthesis sequence is one where each open bracket character has a corresponding closed bracket character. Could you create an algorithmic code to assist Chloe in solving this challenge? The code should return true if the string is a valid parenthesis sequence, and false otherwise.

Constraints :

$1 \leq \text{s.length} \leq 3000$

S consist only '(', ')', '{', '}', '[', '']

Input:

(){}[]

Output:

True

Explanation :

String contain open and closed brackets respectively that results the output True.

Question 2

Problem Statement :

Given a number, find the greatest number less than the given number which is the power of two or find the most significant bit number.

Constraints :

$$1 \leq n < 1000$$

Examples:

Input :

10

Output :

8

Explanation :

Greatest number which is a Power of 2 less than 10 is 8

Binary representation of 10 is 1010

The most significant bit corresponds to decimal number 8.

Question 3

Problem Statement :

Given a non-negative integer n. The problem is to reverse the bits of n and print the number obtained after reversing the bits. Note that the actual binary representation of the number is being considered for reversing the bits, no leading 0's are being considered.

Constraints :

$$1 \leq n \leq 1056$$

Examples :

Input :

11

Prepinista

Capgemini Exceller Preperation Online Course

[Check Now](#)

Courses Screenshots
from 200+ Courses

Output :

13

Explanation: $(11)_{10} = (1011)_2$.

After reversing the bits we get:

$(1101)_2 = (13)_{10}$.

Question 4

Problem Statement :

A Permutation of a string is another string that contains the same characters , only the order of characters can be different.

You have given two strings str1 and str2 , return true if str2 contains the permutation of str1. In other words ,one of str1's permutations is the substring of str2.

Input format :

First line of input contains two string str1 and str2

Output format:

Print true if str2 contains the permutation of str1 otherwise print false

Constraints:

$1 \leq \text{str1.length} , \text{str2.length} \leq 10^4$

Str1 and str2 consist of lowercase English letters

Input :

ab
cdibaoil

Output :

true

Question 5

Problem Statement :

Given two given numbers a and b where $1 \leq a \leq b$, find the number of perfect squares between a and b (a and b inclusive).

Constraints :

$1 \leq a, b \leq 10000$

Examples

Input :

3
8

Output :

1

Explanation : The only perfect in given range is 4.

Capgemini Spoken English Test

The Capgemini Spoken English round is the latest round that has been added to Capgemini Recruitment Process. This is a new round that Capgemini has introduced, and the following sections are included :-

1. Grammar and Reading Comprehension
2. Listening
3. Speaking

The writing section will have around 10 questions in an MCQ Format where they will test your grammatical and vocabulary skills, some of the topics from which questions will come in this section are :-

- Sentence Correction
- Prepositions
- Grammar
- Reading Comprehension
- Synonyms & Antonym
- Speech and Tenses
- Article
- Sentence Selection
- Spotting Error
- Sentence Arrangement

Question 1

Find the word which best expresses the meaning of the word:

“Interfere”

- A. Let
- B. Free
- C. Impede
- D. Unclog

Question 2

Fill in the blanks with the appropriate words from the given options:

The number of deceased soldiers is _____ book.

- A. not stored in the record
- B. Not kept store in the record
- C. Not been store in the record
- D. Not kept stored within record

Question 3

Question: Fill the space with a suitable article

This is _____ car I bought yesterday

- A. a
- B. the
- C. an
- D. No article

Question 4

Change the voice of the given sentence by choosing correct option given below :

We said to the professor, “We have finished our project.”

- A. We requested the professor that we have finished our project.
- B. We told the professor that we had finished the project.
- C. We asked the professor if we have finished the project
- D. We told the professor that our project has been finished by us

Question 5

Select the correct option that fills the blank to make the sentence meaningfully complete:

Precautionary steps taken by the management are ineffective_____ they are backed by public action.

- A. So that
- B. If
- C. Whether
- D. unless
